WHY DELIVERIQ

Attention you can't buy with a banner ad.

Live attention

Your brand appears while a real expert holds the room — live demos, live Q&A. Engaged minutes, not scroll-past impressions.

Consent-based leads

Attendee details shared only with explicit opt-in consent — fully GDPR-compliant. Quality prospects who chose to hear from you.

THE ORGANISATIONS BEHIND THEM

Our audience is drawn from leading engineering, construction, energy, transport and infrastructure organisations across the globe — the teams delivering some of the world's largest and most complex projects. Your brand meets the practitioners inside them, in the moment they're learning.

WHERE THIS IS GOING?

Built for the long run.

DeliverIQ exists to become the place where the project world keeps up — one live room where practitioners share what's new before it becomes common knowledge. We're starting with sessions; we're building a community.

01 Launch the founding line-up

First sessions led by hand-picked practitioners across Project Controls, Project Management, Technology & AI, Delivery Leadership & Beyond the Framework.

02 Grow the global room

A registered community of project professionals across 8+ countries, tuning in live and building on every replay.

03 Partner-led series

Topic series where partners' experts educate the market they serve, with category exclusivity built in.
